

Researcher and Educator Checklist

Bluegrass Lane Turf & Landscape Research Center, Ithaca

This checklist is intended to be a helpful resource as you collaborate with Cornell University Agricultural Experiment Station (CUAES) staff to begin a project at **Bluegrass Lane in Ithaca, NY**, one of nine farm operations managed by CUAES. It is **highly recommended** that you sit down with the farm supervisor at this location **well in advance** of beginning a new project to review each topic below.

Contact Information:

- List contact information for all project participants (PI, technicians, graduate students...):

- Do the members of your program have the required training and certifications (WPS, SPCC, pesticide license, farm equipment, truck...)

Project Overview and Requirements: Topics for Discussion:

- Briefly summarize your project and project goals:

- Define project parameters:

- Start date/end date (duration)

- Size/layout/plot dimensions

- Crop(s) grown

- Site history/requirements/location

- Isolation requirements (Y/N)

- Organic or conventional

- Level of farm acumen (e.g. experience with equipment, weather, crop, insects...)

- **Define needs/expectations for:**
 - Labor/service assistance from CUAES staff

 - Specific equipment (site prep., planting, harvest)

 - Pesticide applications/ other pest management/ WPS

- Fertilizer (type, quantity)

 - Mulch/cover/companion crops/compost

 - Irrigation (Y/N, type)

 - Facility space: shop—lab—drying ovens—pesticide storage—equipment storage
- Outline of class needs (course #, students, lunch, safety)**
